Wingate Elementary Head Start News Ms. Lynda

- In the month of December, we will celebrate the holidays by studying bread. During this study, students will learn how yeast works with different science experiments. We will make various types of bread and learn traditional breads from other countries.
- The week of before Christmas, our class will take a break from studying bread to study Holidays around the World. Students will learn each day holiday traditions of a country like France, Italy, and Mexico. December should be a delicious and exciting learning experience in Head Start.
